Just a note to say how pleased I've been with this whole process – and particularly with Linwood. He not only “got” it, but added a dimension that really nails the feeling of the area. Great chart, crisp, sweet production, incredible turnaround. Sounds like the lost James Taylor tapes – wish we could do a song! Anyway, I love it, client's delighted, even my wife is impressed. Thanks for a great job all around.

I absolutely LOVE Bell Creative Studio!!! Not only are they super-talented and efficient, they are a very knowledgeable source for internet marketing & branding! They built my website in just days and they educated me on how to manage my site for blogging and adding my own photos and videos. What impressed me the most about working with Linda Bell and the Bell Creative Studio Team, was their commitment to getting it right. They involved me in the entire creative process from conception to the finished website...always committed to my vision. They even created a remarkable jingle for us that is so identifiable and unique...it is the BEST marketing tool we have ever used to brand ourselves and to create long lasting top of mind awareness! I would highly recommend Bell Creative Studio to any company who wants to stand out and have a very creative presence on the internet!

Dear Linda and Linwood,

I am writing to tell you both what a joy it is to work with you. Whether I am recording live, producing powerful messages including your music, or having your guidance in editing and directing my projects, I could not ask for better partners. When I receive a letter from someone across America, in Australia, or Italy, or Canada, who is enjoying one of my CD's, I always remember that you play an important part in their creation. Thank you for this great professional relationship and may it last forever.

A dynamic jingle begs you to sing along. It gets in your head, you sing it all day, it drives you crazy because you can't stop hearing it in your head, and your children go around singing it. I would like to thank you for the tremendous job your company did on our new jingle. I could not have been more excited as you played the finished product to me for the first time. I simply was astonished to hear our message delivered in such an effective manner. While discussing our needs with you, I felt at best it would be a very long process to develop a jingle that "HIT THE MARK." Much to my pleasant surprise, you were able to "HIT THE MARK" on the very first attempt. Our new jingle delivers our message very effectively. In today's world, finding a company that takes pride in the product they deliver is very refreshing.

Again, many thanks!

Another great jingle! As usual, top national quality, both musically and lyrically. You have only a few seconds in a jingle to give the audience the proper "feel" in what is basically a short song extolling the virtues of a particular client. It's far easier to write love songs than it would be to present what makes a client different than their competition and why a customer should use their services...all in a catchy song that plays in just a few seconds of airtime. The jingles you write and produce fit the copy we write and produce here at DreamMakers Productions of NextMedia Chicago perfectly, and it's amazing how it all comes together to please the client and give them what they pay for: effective commercials that are memorable and work for the client.

Dear Linda:

I had to write to let you know how thrilled my client Bret Morris and I are with the jingle that you produced for him. I know that you put an extraordinary effort into working with Bret since he is hard to reach and very much the perfectionist. One of the things that impressed me the most was the voice you selected to sing the jingle. When I heard her sing I knew that her voice would compliment Brets' voice beautifully and it did. Thank you for all your time and your upbeat and professional attitude. It has been a great pleasure working with you! I hope we will have the opportunity to do so again. Have a lovely weekend.

Hi Linda

I think you out did yourself on this. It sound awesome.

Thank You.

Jim Shields, Universal Windows Direct

Hi Linda,

I would like to start with what a pleasure it was doing business with your company. You were friendly, fast, efficient and extremely professional from start to finish. Your enthusiasm and obvious love of what you do shines and makes you in particular a delight to work with, especially considering that other than the fact that I wanted a jingle I had no idea what I wanted and you skillfully guided me through the entire process. When all was said and done I felt the product was first class and the price was fair.

As far as results the most exiting for me was when I ran into my former boss (who also happens to be one of my biggest competitors) and his wife at a restaurant. Within a few minutes of chatting with her and as soon as he was out of earshot she immediately said "Help, I need a hero" and made reference to the jingle you created for me. Nice to know that people, even those who are not potential clients are hearing the message.

Another great and the most profitable experience I can directly tie to the jingle is when a first time client called. When we asked her how she found our phone number she immediately said "you know the song on the radio, I just can't get it out of my head". She then sang " Call 584-HERO" in perfect tune to the jingle. Later that day when we visited her home she signed a contract for almost \$9000.

Our company name, Bear Valley Plumbing and Heating is very hard to brand because so many other companies bear (pun intended) the same name as us because we all live in the Big Bear Valley. As a matter of fact we conducted a solo name awareness survey and our own

clients couldn't remember our name. The new HERO brand has been very successful and your jingle has played what I would estimate to be an 80% part in the branding effort. Everywhere I go in town I constantly hear "Help, I need a hero" or "There goes my hero" from friends and associates. It's really become kind of a friendly joke to make sure someone says something like that. That's exactly what I had envisioned from the hero brand was something kind of "corny and funny" while being "memorable and credible" at the same time. Your jingle was right on the mark.

I just can't say enough about you, your company and your jingle.

Thanks,

Bob Rehfuß

Owner

Bear Valley Plumbing and Heating

I have been selling Radio for 25 years and worked with many different production companies and just like anything else there are those companies that are just so so and others that shine and just get it. I would consider Linda at Bell Music Productions one that shines! She is excellent at understanding the concepts that I wanted and bringing them to life for my clients. When she called to play the final piece for my clients, never before had they been so excited! They absolutely loved her work!

There were many times when I worked with other companies that I would go back and forth and in the end either had nothing or had a product that we weren't happy with and that didn't produce results for my clients. Linda was easy to work with, offered quick turn around and produced a dynamite product that is getting my clients excellent results!

Of all the production companies I have worked with through my years in Radio, Linda is the best!
